DESCRIPTION:

Application

- Preassembled filtering system with hydrocyclone and screen filter

Specifics

- Maximum pressure: 8 bar
- Couplings: DN100 flanged
- Filtering element: stainless steel screen, 120 mesh
- Closing: screw

Features

- DN100 hydrocyclone
- Self-cleaning, manual screen filter (DN100)
- Painted steel manifolds
- Butterfly valve
- Suitable for fertigation as well

Materials

- Body, cap: galvanized steel
- Filtering element stainless steel screen
