> Drive-over Valve Box

DESCRIPTION:

Features

- Strength and stability – multiple sizes and shapes are designed with corrugated sides and wide flange bases for maximum durability, compression strength, and stability
- Smart lid design – designed with no holes to keep out pests, beveled edges to minimize damage potential from turf equipment, and for easy hand and shovel access
- Flexible installations – interlocking stacking capabilities, extension models and pipe hole knockouts support deeper and flexible installations
- Environmentally Friendly – Earth-friendly, LEED-compliant material made of 100% recycled materials (black boxes and black lids only)

> VBA Residential Valve Box

DESCRIZIONE:

Applications

- The rectangular and circular valve wells made of plastic facilitate access to manual valves or solenoid valves and other equipment used in automatic irrigation systems
- These valve boxes are highly recommended for residential installations

Features

- Shafts made of black polypropylene - green cover made of the same material
- Cover included
- Aesthetically pleasing, light and can be inserted one inside the other to reduce shipping costs
- Lockable cover
- Exclusive T-COVER
- Easy to identify: Rain Bird marking and model code printed directly into the structure
- Easy to open: integrated hole and groove for 2 in 1 lifting key
- Pre-cut inlets and outlets for pipes: no tools needed
