Scarabelli > Oxygenators

> Oxygenators and Floating Water Games for Ponds and Fish-Farming

DESCRIPTION:

Application

- The floating oxygenators are suitable for small bodies of water up to large lakes, to overcome the problems created by the lack of oxygen and the static nature of the water itself

Splash specific features

- Lightweight and easy to install
- Suitable for use in fresh water or sea water
- Double propeller for large flow rates (mod. At 1.400 rpm)
- Mono-propeller for fountain effect (mod. At 2.800 rpm)
- They do not create erosion on the bottom

Code	Type	Power supply	Power			Flow rate l/m	Transferred oxygen kg/h	R.p.m.	Motor cable length m	Weight kg	
			Nominal		Absorbed						
			Hp	Kw	Kw						
OKT027	Splash series	Single-phase	0,5	0,37	0,6	2.000	0,8	1.400	20	24	
OKT024	Splash series	Three-phase	0,5	0,37	0,6	2.000	0,8	1.400	20	24	
OKT028	Splash series	Single-phase	1,0	0,75	1,2	3.200	1,4	1.400	20	25	
OKT025	Splash series	Three-phase	1,0	0,75	1,2	3.200	1,4	1.400	20	25	
OKT040	Splash series	Single-phase	1,8	1,30	1,7	3.100	1,3	2.800	20	25	
OKT045	Splash series	Three-phase	1,8	1,30	1,7	3.100	1,3	2.800	20	25	
OKT070	Closed Splash protection										
OKT071	Open Splash protection										

Code	Type	Power supply	Power			Flow rate l/m	R.p.m.	Weight kg	
			Nominal		Absorbed Kw				
			Hp	Kw					
OKT263	Sprint series	Single-phase	1,5	1,0	1,1	1.110	2.850	24	
OKT265	Sprint series	Three-phase	1,5	1,0	1,0	1.250	2.850	24	

Note: other models are available for fish farming and fishing
