## Raccordi Vari > Prese a Staffa Plasson

### DESCRIZIONE:

#### Specifiche

- Massima pressione: 12,5 bar (6 bar staffe doppie)

#### Caratteristiche

- 2 bulloni: fino al Ø 50
- 4 bulloni: oltre Ø 50
- Sistema blocca vite
- Sistema blocca guarnizione
- Filettature: UNI EN 10226-1 (ISO 7/1)

#### Materiali

- Corpo: in Polipropilene Hi-grade copolimero nero (PP-B)
- Guarnizioni: Gomma nitrilica (NBR)
- Bulloni e rondelle: in acciaio galvanizzato

| Senza rinforzo inox                                                               |        |    |     | Con rinforzo inox                                                                 |        |      |     | Staffe doppie*                                                                      |        |    |    |                                                                          |        |    |    |
